

**Blanchard Typology**

*Ignored/dismissed by Blanchard et al.*

Age period	Age of GD onset	Personality characteristics of patient	Characteristics of environment [See Note 2]	Development during puberty	Sexual orientation [See Note 1]			Pre-op	SRS?	Post-op	Orientation of partners	Classification	
					Initial	During transition	Post-op						
Childhood	< 10	Natal Male: Effeminate, girl oriented by play, friendships, asserts 'girl'; Natal Female: Masculine, boy oriented by play, friendships, asserts 'boy'	-> Accepting family/home life and community  Traditional, conservative or religious assertion of gender conformity = Rejection of non-conforming behaviors by punishment/bullying	Physical: Marginal, delayed to absent; Psychological: hyper-feminine / hyper-masculine	->	Towards same natal sex m->m, f->>f	N/A	<- Towards same natal sex m->m, f->>f	->	Yes, by 25	<- Towards same natal sex m->m, f->>f <- Towards opposite natal sex m->>f, f->m	HSTS N/A	
					->	Towards same natal sex m->m, f->>f	N/A	<- Towards same natal sex m->m, f->>f	->	No			
					->	Towards opposite natal sex m->>f, f->m	N/A	<- Towards same natal sex m->m, f->>f or no partners	->	Yes	<- Towards same natal sex m->m, f->>f <- Towards opposite natal sex m->>f, f->m	N/A	
					->	Towards same natal sex m->m, f->>f	N/A	<- Towards opposite natal sex m->>f, f->m	->	No			
->	Towards opposite natal sex m->>f, f->m	N/A	<- Towards opposite natal sex m->>f, f->m or no partners	->	Yes	<- Towards same natal sex m->m, f->>f <- Towards opposite natal sex m->>f, f->m	N/A						
Childhood	N/A	Natal behavior atypical: Lack of friends, no stereotypical behaviors Few or no cross-sex behaviors  Traditional, conservative or religious assertion of behavioral norms	Accepting family/home life, community  or  Traditional, conservative or religious assertion of behavioral norms	Physical: Normal development and timing Psychological: delayed, compromised	->	Towards opposite natal sex m->>f, f->m	N/A	<- Towards opposite natal sex m->>f, f->m	->	No			
					->	Towards same natal sex m->m, f->>f or no partners	N/A	<- Towards same natal sex m->m, f->>f or no partners	->	No		N/A	AGP:NON-SRS
					->	Towards same natal sex m->m, f->>f or no partners	N/A	<- Towards same natal sex m->m, f->>f or no partners	->	No			
Adulthood	> Puberty	Typical for natal sex; opportunistic cross-dressing  Rejection of non-conforming behaviors	Supportive family/community  Physical: typical timing and development; Psychological: Gender conforming	->	Towards opposite natal sex m->>f, f->m	N/A	<- Towards opposite natal sex m->>f, f->m	->	Yes >30	<- Towards same natal sex m->m, f->>f <- Towards opposite natal sex m->>f, f->m	AGP: SRS		
				->	Towards same natal sex m->m, f->>f	N/A	<- Towards same natal sex m->m, f->>f	->	No				
				->	Towards opposite natal sex m->>f, f->m	N/A	<- Towards opposite natal sex m->>f, f->m	->	No		N/A	AGP:NON-SRS	
				->	Towards opposite natal sex m->>f, f->m	N/A	<- Towards opposite natal sex m->>f, f->m or no partners	->	Yes	<- Towards same natal sex m->m, f->>f <- Towards opposite natal sex m->>f, f->m	N/A		

Note 1: "Towards opposite natal sex" includes bisexual
